Information about Domestic Violence
What is Domestic Violence?

It Can Happen To Anyone...

Domestic violence can happen to anyone. It doesn’t matter how much money you have, your race, religion, gender, sexual preference or age. It is a societal problem; not a personal one.

It’s Not Just Physical...

Domestic violence is not just physical abuse. Although it can include hitting, punching, slapping and pushing, domestic violence also includes emotional, verbal, sexual and financial abuse as well.

Emotional abuse may be hard to recognize, but can include manipulation, isolation from friends and family, and threats. Verbal abuse includes name calling and insults. Sexual abuse is when your partner forces you to have unwanted sexual interaction. Financial abuse includes control of money you would need to escape the relationship.

It’s Never Okay...

No one deserves to be abused - you have the right to be safe. Contact SafePlace for support and/or to discuss your options.

What can I do to stay safe?

Safety Planning in Brief

Safety planning is a way for you and your children to talk about and plan ways to be safe.

SafePlace has general safety plans available and advocates can work with you on creating a safety plan for your own needs. Call our help line day or night. You can also visit our drop in office on Tuesdays or Wednesdays during walk in hours and an advocate can help you make a plan that works for you.

5 things you can say to support a survivor of Domestic Violence...

1. I’m afraid for your safety.
2. I’m afraid for the safety of your children/family.
3. You don’t deserve to be controlled or abused.
4. This is not your fault.
5. There are places to call for help.

For a relationship to be an abusive one, there will be a recurring pattern of the above behaviors.

Miscommunication about feelings happen; one or two jealous instances in healthy relationships don’t necessarily make the partnership a bad one. When these issues occur frequently and are resolved in abusive ways, there is reason for concern.

If you need to talk about your relationship or would like more information, call SafePlace at (360) 754-6300.

Signs of an abusive relationship

- Jealousy
- Controlling behavior
- Rushes you to commit to the relationship
- Unrealistic expectations
- Isolation from your friends or family
- Blames you or others for their problems or feelings
- Hypersensitivity
- Cruelty to animals or children
- Using force in sex

Signs of a healthy relationship

- Respectful of your friendships and family
- Does not try to control your life
- Does not push for any commitment or sexual activity when you aren’t ready
- Takes equal responsibility for making the relationship work
- Is comfortable talking about problems or feelings
- Partners are equal
